OBJECTIVE

Detail-oriented Software Engineer specialize in frontend development with 2 years of experience in designing and developing user interfaces using React.js, Next.js, and Material-UI. Proficient in JavaScript, CSS, and REST APIs. Seeking to leverage skills in a dynamic environment to contribute to innovative projects and deliver seamless user experiences.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER   JAN 2023 - JULY 2024
Digital X Branding Sdn Bhd

- Developed and maintained web applications using React.js and Next.js, improving page load times by 10% by implementing pagination.
- Collaborated with backend developers to integrate RESTful APIs, ensuring smooth data flow and enhancing user experience.
- Utilized Material-UI and CSS for designing modern, user-friendly interfaces, resulting in a 15% increase in user engagement.
- Worked with Git for version control, maintaining a clean and efficient codebase.
- Participated in code reviews, identifying and fixing bugs, and optimizing code for better performance.
- Creating reusable, modular components to maintain a scalable and maintainable codebase.

SOFTWARE ENGINEER INTERN   SEPT 2022 - DEC 2022
Digital X Branding Sdn Bhd

- Assisted in the development of web pages and components using HTML5, CSS3 and JavaScript.
- Implemented responsive designs that work across various devices, leading to 20% increase in mobile traffic.
- Work closely with designers to translate mockups into functional web pages.
- Engaged in team collaborations to enhance the UI/UX of existing applications.
